

# ACM ICS01 Call for Papers

ICS provides an established international forum for the presentation of new research results on high performance and parallel computing systems. Now in its 15th year, this premier supercomputing conference will include invited talks, exhibits and special sessions (tutorials and workshops, panels). Papers are solicited on all aspects of research, development, and application of parallel high-performance systems including new experimental and commercial systems, multithreaded and high performance computer architectures, high performance and parallel embedded systems, operating systems and support software, parallel I/O, optimizing compilers, performance evaluation, high performance Java, program development tools, numerical and non-numerical algorithms and computationally challenging applications.

Papers not exceeding 6,000 words in pdf or postscript format must be submitted electronically as specified at the conference web site. June 16-17 and 18 are reserved for workshops and tutorials in technically appealing areas that are relevant to the Conference. Proposals for such events are also solicited with this call. For up-to-date information refer to the ICS'01 web site at [www.cib.na.cnr.it/ics01](http://www.cib.na.cnr.it/ics01) or contact the conference chairs.

## General Chair

Mario Mango Furnari  
Istituto di Cibernetica, CNR  
Arco Felice, Italy  
[mf@cib.na.cnr.it](mailto:mf@cib.na.cnr.it)

## Program Chair

Efstratios Gallopoulos  
Dept. Computer Eng. & Informatics  
University of Patras, Greece  
[stratis@ceid.upatras.gr](mailto:stratis@ceid.upatras.gr)

## Program Committee Vice Chairs

<i>Hardware &amp; Architecture</i> Alex Veidenbaum, USA	<i>Software</i> Alex Nicolau, USA	<i>Algorithms &amp; Applications</i> Bernard Philippe, France
--	--------------------------------------	--

## Important Dates

<i>Papers due</i> February 13th, 2001 11pm GMT	<i>Tutorial and Workshop proposals due</i> February 13th, 2001 11pm GMT	<i>Acceptance notices sent</i> March 30, 2001	<i>Final papers due</i> May 1, 2001
